

# International Science and Environmental Assessments Workshop

## School of Environment, Arts and Society

*Learn from a leading international climate scientist working with global leaders to make critical decisions to combat the changing climate.*

### **BSC 6926 U02 TBA** **Interdisciplinary Graduate Student Workshop**

The International Science and Environmental Assessments workshop will focus on current research concerned with the interface of science, public policy, and business, particularly research activities that are focused on global and regional climate change and the role of science in facilitating global understanding of environmental vulnerability and sustainable development. Location: TBA. The workshop will be polycomed to BBC AC 1 317. For more information, contact seas@fiu.edu.

The interdisciplinary workshop will be led by Dr. Robert Corell an American global climate scientist who was recognized along with his colleagues for the 2007 Nobel Peace Prize for his work with the International Panel on Climate Change (IPCC) assessments. In addition to holding a number of academic, governmental, and international climate science and public policy appointments, Dr. Corell is frequently called on by global leaders such as Al Gore, Vladimir Putin, and BMW.

#### **Robert W. Corell, Ph.D.**

*Senior Faculty Fellow, School of Environment, Arts and Society*

*Professor II and Arctic Chair, University of Tromsø, Norway*

*Principal, Global Environment and Technology Foundation*

**Oct. 21 – 25:** Students meet with Dr. Corell from 1:00 – 2:30 pm. At the end of the week the project and groups are assigned.

**Nov. 12-14:** Groups meet individually with Dr. Corell by appointment to review and refine projects.

**Nov. 20:** Students present projects 1:00 - 2:30 pm.
